A Woman’s Right to Know
Resource Directory

The Woman’s Right to Know Resource Directory has been designed to inform you of public and private agencies that are available to assist you through pregnancy, upon childbirth, and while your child is still dependent, including adoption agencies and agencies that offer alternatives to abortion.

HOW TO USE THIS WOMAN’S RIGHT TO KNOW RESOURCE DIRECTORY...

- First, review the services listed below for agencies that might be able to assist you.
- Second, choose the type of agency that you might need.
- Third, review the services available in the county in which you live.
- Fourth, call an agency and tell them what you need. The agency will answer your questions or might be able to advise you who to call for the services you need to assist you through your pregnancy, upon childbirth, and while your child is still dependent.

By calling or visiting the resources listed in this directory, you can find out about public and private agencies that offer medical, financial, and support services which might be available to assist you with expenses such as; housing, food, clothing, health care, legal aid, child care assistance, and educational opportunities. You also will find listings for adoption agencies that offer an alternative choice for unplanned or problematic pregnancies, possibly at no cost to the birth mother. Some agencies have special eligibility requirements, so contact the agency you are interested in to see if you qualify for services.

If a pregnant woman is diagnosed with a fetal anomaly incompatible with life, there is an alternative to abortion. Oklahoma Law (63 O.S. § 1-746.3) requires the State Board of Medical Licensure and Supervision to publish information regarding perinatal and palliative care services available should a woman choose to continue her pregnancy.

Perinatal Hospice and Palliative care is designed for parents who have received a diagnosis of a fetal anomaly that is incompatible with life and choose to continue the pregnancy, despite the possibility that the baby will die before or after birth. Typically, with perinatal hospice and palliative care, a supportive team will work with the family as they make plans to care for the birth and death of the infant and through the postpartum period. This supportive care may include maternal-fetal medical specialists, obstetricians, neonatologist, anesthesiology specialists, psychiatrists, psychologists, or other mental health professionals, clergy, social workers, and specialty nurses who will provide clear and relevant information that is needed, such as:

Educational Support
- Provide family with specific information about the unborn child’s diagnosis.
- Help family to know what to expect throughout the grieving process.
- Offer private childbirth education classes and hospital tours.

Emotional Support
- Provide grief support beginning at time of diagnosis.
- Offer referrals for professional or pastoral care as requested.
- Attend delivery at the family’s request to serve as an advocate and to provide additional emotional support.
- Provide follow-up support throughout the bereavement period.
- Refer family to a local bereavement support group.

Practical Guidance
- Assist with a personalized birth plan that speaks to parents’ wishes for the labor and delivery experience and care of the infant at birth.
- Provide coordination of services between different caregivers.
- Assist the family with the collection and preservation of keepsakes.
- Help the family plan a memorial service.

**OKLAHOMA’S "SAFE HAVEN" LAW**

You should know that, if you choose to have your baby and find yourself weighed down or frightened by the prospect of being a parent, Oklahoma has a “Safe Haven” law. The law allows you, as a parent, to leave a baby seven days old or younger in a safe place and not return for the baby without fear of being charged with a crime, if the baby is not hurt. Safe places are any of the following:

- A medical services provider
- A Child Rescuer, which is any employee or designated person on duty at a:
  - Police Station
  - Fire Station
  - Child Protective Services agency
  - Hospital or other medical facility

Talk to someone if you feel weighed down or frightened about being a parent. Help is available. Contact a Child Rescuer at one of the Safe Place locations mentioned above or call:

The Woman’s Right to Know Resource Directory lists the following public and private agencies and the services they offer that will assist you through pregnancy, upon childbirth, and while your child is still dependent. Look for the services that are available in the county where you live or the county where you would like to receive services. Some of these agencies and their programs have special eligibility requirements, so contact the agency you are interested in to see if you qualify for services.

**Adoption Agencies**
Adoption agencies offer birth mothers an alternative choice for unplanned or problematic pregnancies. Services provided to the birth mother might include assistance with living expenses such as; housing, food, medical care, and legal services, possibly at no cost to the birth mother. In addition, educational opportunities might be available. Public and private adoption agencies are listed if you decide to make an adoption plan for your unborn child.

**Domestic Violence/Sexual Assault Agencies**
Domestic Violence agencies often can provide shelter, food, clothing, crisis counseling, and referrals for transitional housing, health services, children/family services, legal resources, vocational/educational opportunities, advocacy support groups, and other programs that will assist a woman in domestic violence circumstances. These agencies might also assist a woman in rape crisis services.

**The Oklahoma Department of Human Services (DHS)**
The Oklahoma Department of Human Services (DHS) can provide financial help, food, and medical care to low-income Oklahomans. They can provide pregnant women with basic health care coverage, and children under 19 can be eligible for medical benefits. DHS can provide temporary support for meeting basic needs, training leading to employment, and day care assistance for qualified families with children.

**Oklahoma Health Departments**
- Oklahoma State Department of Health (OSDH)
- Oklahoma City-County Health Department (OCCHD)
- Tulsa Health Department (THD)

Each of these public health agencies provides pre-natal care services at selected health department locations to optimize the health wellness, and nutrition of pregnant women by promoting early and continuous pre-natal care.

Children First, Oklahoma’s Nurse-Family Partnership is a voluntary family support program that offers home visitation services to mothers expecting their first child. Upon enrollment, a public health nurse works with the mother in order to increase her chances of delivering a healthy baby. In addition, the nurse will educate the mother about child safety and child development. The nurse can also connect the mother to needed services in her community such as childcare, housing and job/educational programs.

Other services provided by the health departments that might be of assistance to childbearing and childrearing families include:
- Preventative physical and behavioral screenings and health services for children
- Services for children with special health care needs
- Child immunizations
- Family planning services
- Screening and treatment for sexually transmitted diseases and HIV
- Infant car seat programs
- Screening for breast and cervical cancer
- Referrals for services such as personal development, mental health or drug/alcohol treatment and domestic violence prevention might also be available.

Services are targeted for individuals or families who are uninsured or underinsured. Services might be free or on a sliding scale based on family size and income. Services will not be refused based on inability to pay for those who meet the eligibility requirements.

**Pregnancy Resource Centers**
Pregnancy resource centers (also called Pregnancy Crisis Centers) are non-profit service agencies that assist pregnant women and encourage continuation of a pregnancy. These centers offer a broad range of free services such as pregnancy testing, crisis pregnancy peer counseling, pregnancy education, fetal development and pre-natal care information, adoption referrals, and childbirth and parenting classes. They may also assist in providing maternity and infant clothing, diapers, formula, baby food, and access to a network of public and private community programs that assist pregnant women with housing, food, medical treatment, legal aid, childcare assistance, and educational opportunities. Some of these centers offer on-site pre-natal health care.

**Additional Agencies**
Agencies that may offer services and assistance to a woman through her pregnancy, upon childbirth, and while her child is dependent.

**WIC** 
Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides nutritious foods for women, infants, and children, referrals to health and human services, breastfeeding support, and immunizations at some clinics. WIC has nutrition education programs that tend to emphasize the relationship between proper nutrition and good health, with special emphasis on the nutritional needs of pregnant, postpartum, and breastfeeding women, infants, and children.
Free Ultrasound Imaging/Heart Tone Monitoring
The agencies listed under this heading offer free ultrasound imaging and/or heart tone monitoring that enable a pregnant woman to view her unborn child or listen to the heartbeat of the unborn child. Interested women may call one of the agencies for a confidential appointment.
